

Ms. Malashenok

Ms. Malashenok is Trimble Tech's very awesome French teacher. She is a calm teacher who loves to discuss elements of French, as well other topics related to french and other places in the world. She encourages students to do their best and to work hard for their goals.

What to do?

1. Cut out along the outside solid lines. Cut out the shaded rectangle selections on the body.
2. Cut out arm pieces based on the dotted line, separate the the two parts of each arm.
3. Fold the sides of the body and feet to a box-state, then glue or the tape the slabs in to hold the sides; overlay the hair section over the front of the head and glue.
4. Take the arms, fold them and glue. Stick the arms in the cut out section. **You're done!**
