

Ms. Powell

is my Graphic Design teacher, and is the teacher that I've known the longest and best out of all my teachers. She's a great teacher that knows how to push and motivate students to do the best they can. I've learned a lot from her, and her class have been a fun part of my high school experience.

Cut around the outline (Cut the special black line between K and C as well).
 Cut out the Grey Area.
 Fold on the dotted lines.
 Put glue on the back of either the top or bottom part of the arms, and then fold the arms on top of each other.
 Put glue (or any adhesive) on the front of folds (the trapezoids), and then put the folds behind the the parts its being folded next to.
